

CERTIFICATE OF ACCREDITATION

The ANSI National Accreditation Board

Hereby attests that

X-Ray Now
18012 Cowan #200, Office 113
Irvine, CA 92612

Fulfills the requirements of

ISO/IEC 17025:2017

and national standard

ANSI/NCSL Z540-1-1994 (R2002)

In the field of

CALIBRATION

This certificate is valid only when accompanied by a current scope of accreditation document.
The current scope of accreditation can be verified at www.anab.org.

Jason Stine, Vice President

Expiry Date: 17 April 2025

Certificate Number: AC-2672

This laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025:2017.
This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory
quality management system (refer to joint ISO-ILAC-IAF Communiqué dated April 2017).

**SCOPE OF ACCREDITATION TO ISO/IEC 17025:2017
AND
ANSI/NCSL Z540-1-1994 (R2002)**

CALIBRATION

Valid to: **April 17, 2025**

Certificate Number: **AC-2672**

Length – Dimensional Metrology

| Parameter / Equipment | Range | Expanded Uncertainty of Measurement (+/-) | Reference Standard, Method and/or Equipment |
|--|--|--|---|
| Coating Thickness Measuring Instruments by X-Ray Florescence Spectroscopy ¹ | (15 to 195) μin (0.38 μm to 4.9 μm) | 4.6 % of reading + 1.3 μin 4.6 % of reading + 0.03 μm | ASTM B568 (X-Ray Florescence) |

Calibration and Measurement Capability (CMC) is expressed in terms of the measurement parameter, measurement range, expanded uncertainty of measurement and reference standard, method, and/or equipment. The expanded uncertainty of measurement is expressed as the standard uncertainty of the measurement multiplied by a coverage factor of 2 ($k=2$), corresponding to a confidence level of approximately 95%.

Notes:

1. On-site calibration service is available for this parameter, since on-site conditions are typically more variable than those in the laboratory, larger measurement uncertainties are expected on-site than what is reported on the accredited scope.
2. This scope is formatted as part of a single document including Certificate of Accreditation No. AC-2672.

Jason Stine, Vice President
